## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Darren M. Simon on 10 December 2004.

The application has been amended as follows:

In claim 9, on line 5, --speed -- has been inserted after "normal".

### ***Allowable Subject Matter***

2. Claims 1 and 3-20 are allowed the have been renumbered 1-19.

3. The following is an examiner's statement of reasons for allowance: Independent claim 1 establishes a step when a sound absence portion is to be deleted to join sound presence portions which precede and follow the sound absence portion to each other, fade-out processing is performed for the sound presence portion which precedes the joining point between the sound presence portions whereas fade-in processing is performed for the sound presence portion which follows the joining point. This limitation is neither disclosed not suggested in the prior art or record. Kikuchi et al. ("Kikuchi") (US Patent 6,574,422) discloses a sound reproduction method but does not disclose the limitation above. Independent claims 9 and 20 establishes suppressing an amplitude of

a termination portion of each continuous sound portion of a reproduction input sound signal obtained by reproducing, from a recording medium, a sound signal recorded on the recording medium at a speed higher than a normal speed and delimiting the reproduction input sound signal after the amplitude suppression processing into successive processing unit periods. This limitation is neither taught nor suggested in Kikuchi. Independent claim 14 establishes a processing unit period setting section for setting successive processing unit periods for speed conversion processing to be performed for a reproduction input sound signal. This limitation is neither taught nor suggested by Kikuchi. Therefore independent claims 1, 9, 14, and 20 are allowed along with their dependents.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
